To guarantee your own meat back in sausage or jerky, there is a 25 lb. minimum for each type of product you would like made. If you would like one product made, you'll need 25 lbs. For 3 different products you'll need 75 lbs.

Please note: Because of the limited time we have during actual hunting season, custom orders may need to be made at a later time. Please check with Jerry before you leave to make arrangements.

We recommend that you bring your own ice chests to safely transport your meat to its destination. If you are transporting your meat by commercial Airlines, please be aware that they may open each box for inspection. Therefore, do not secure your boxes until the Airlines have completed their jobs and then you can secure your cargo how you see fit.
